Jika tidak, layar dapat rusak karena tekanan langsung. 	<ol style="list-style-type: none"> Masukkan dasar dudukan ke dalam lubang di bagian bawah TV. Masukkan dan kencangkan sekrup ke dalam lubang yang sejajar di TV dan lubang alas dudukan di bagian bawah/ belakang TV. 	Bantalan lunak
AR	تركيب الحامل	<p>تنبيه • قم بالجميع على وسادة ناعمة على طاولة ثابتة ومستوية وعريضة.</p> <ul style="list-style-type: none"> العمل مع شخصين أو أكثر. لا تمسك بزوايا التلفزيون عند الرفع. لا تقيم بإزالة الوسادة الواقية حتى يتم جميع التلفزيون. خلاف ذلك، يمكن أن تتلف الشاشة من الضغط المباشر. 	<ol style="list-style-type: none"> أدخل قاعدة الحامل في الفتحات الموجودة أسفل التلفزيون. أدخل المسامير وأحكام ربطها في الفتحات المحاذية في التلفزيون وفتحات قاعدة الحامل في الجزء السفلي/ الخلفي من التلفزيون. 	حشية لينة

Dear SHARP customer

Thank you for your purchase of the SHARP LCD colour TV product. To ensure safety and many years of trouble-free operation of your product, please read the Important Safety Precautions carefully before using this product.

Important Safety Precautions

[ENGLISH EN]

- Stand base must be attached to prevent the TV set from falling down and cause injuries.
- Cleaning — Unplug the AC cord from the AC outlet before cleaning the product. Use a soft damp cloth to clean the product. Do not use liquid cleaners, aerosol cleaners or chemical cloth to clean it, as such materials may damage the product.
- Water and moisture — Do not use the product near water, such as bathtub, washbasin, kitchen sink, laundry tub, swimming pool and in a wet basement.
- Do not place vases or any other water-filled containers on this product. The water may spill onto the product causing fire or electric shock.
- Stand — Do not place the product on an unstable cart, stand, tripod or table. Doing so can cause the product to fall, resulting in serious personal injuries as well as damage to the product. Use only a cart, stand, tripod, bracket or table recommended by the manufacturer or sold with the product. When mounting the product on a wall, be sure to follow the manufacturer's instructions. Use only the mounting hardware recommended by the manufacturer.
- When relocating the product placed on a cart, it must be moved with utmost care. Sudden stops, excessive force and uneven floor surface can cause the product to fall from the cart.
- Ventilation — The vents and other openings in the cabinet are designed for ventilation. Do not cover or block these vents and openings since insufficient ventilation can cause overheating and/or shorten the life of the product. Do not place the product on a bed, sofa, rug or other similar surface, since they can block ventilation openings. This product is not designed for built-in installation; do not place the product in an enclosed place such as a bookcase or rack, unless proper ventilation is provided or the manufacturer's instructions are followed.
- The LCD panel used in this product is made of glass. Therefore, it can break when the product is struck forcefully or with a sharp object. If the LCD panel is broken, be careful not to be injured by broken glass.
- Heat sources — Keep the product away from heat sources such as radiators, heaters, stoves and other heat-generating products (including amplifiers).
- To prevent fire, never place any type of candle or naked flames on the top or near the TV set.
- To prevent fire or shock hazard, do not place the AC power cord under the TV set or other heavy items.
- Do not place heavy objects on this product or stand on it. Doing so could cause injury if the product overturns. Take special care near children and pets.
- The LCD panel is made with extremely high precision technology, and has 99.99% or more effective pixels. The 0.01% or less missing pixels or those that are always lit is not a malfunction.

Precautions when transporting the TV

When transporting the TV, never carry it by holding or otherwise putting pressure onto the display. Be sure to always carry the TV by two people holding it with two hands — one hand on each side of the TV.

- Do not display a still picture for a long time, as this could cause an afterimage to remain.
- Install the product on the place where the AC cord can be unplugged easily from the AC outlet or from the AC INPUT terminal on the rear of the product.
- Stability Hazard
A television set may fall, causing serious personal injury or death. Many injuries, particularly to children, can be avoided by taking simple precautions such as:
 - ALWAYS use cabinets or stands or mounting methods recommended by the manufacturer of the television set.
 - ALWAYS use furniture that can safely support the television set.
 - ALWAYS ensure the television set is not overhanging the edge of the supporting furniture.
 - ALWAYS educate children about the dangers of climbing on furniture to reach the television set or its controls.
 - ALWAYS route cords and cables connected to your television so they cannot be tripped over, pulled or grabbed.
 - NEVER place a television set in an unstable location.
 - NEVER place the television set on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television set to a suitable support.
 - NEVER place the television set on cloth or other materials that may be located between the television set and supporting furniture.
 - NEVER place items that might tempt children to climb, such as toys and remote controls, on the top of the television or furniture on which the television is placed.

If the existing television set is going to be retained and relocated, the same considerations as above should be applied.

- Do not install the TV in a location in which it will be subject to water drops such as underneath an air conditioning unit or in the vicinity of a humidifier.
 - Water drops falling onto the TV and water entering inside it may result in fire, electric shock, or malfunctions.
 - We recommend that you install the TV at least 1m away from the outlet of an air conditioner.

Initial installation

Follow the steps below one by one when using the TV for the first time. Some steps may not be necessary depending on your TV installation and connection.

- 1 Connect an antenna cable to the antenna terminal.

- 2 Plug the AC cord into the AC outlet.

- Place the TV close to the AC outlet, and keep the power plug within reach.
- Product shape varies in some countries.

- 3 Press / (JOG-KEY) / POWER on the TV.

- 4 Run the initial installation.
 - Follow the guide on the TV screen to set the settings.

NOTE

- This drawings used throughout this manual are based on the 4T-C50FL1X / 4T-C50FK1X.

Viewing E-Manual

Viewing the Built-in Operation Manual

Displays the built-in operation manual on the screen. You can read information about how to use this device.

The internet connection will be required.

- 1 Press **HOME** to display the HOME screen, press **</>** to select "Manual", and then press **ENTER/OK**.

This displays the built-in operation manual screen.

- 2 When you select contents, its page will be displayed.

Appendix

Troubleshooting

The problems described below are not always caused by malfunctions. Check the TV again before having the TV serviced.

Problem	Possible Solution
• No power.	<ul style="list-style-type: none"> • Check if you pressed POWER on the remote control unit. • Is the AC cord disconnected? • Has the power been turned on?
• Remote control unit does not operate.	<ul style="list-style-type: none"> • Are batteries inserted with polarity (+, -) aligned?
• No picture.	<ul style="list-style-type: none"> • Is connection to other components correct?
• No sound.	<ul style="list-style-type: none"> • Is connection to other components correct?

- As a part of policy of continuous improvement, SHARP reserves the right to make design and specification changes for product improvement without prior notice. The performance specification figures indicated are nominal values of production units. There may be some deviations from these values in individual units.
- Specification may differ depending on the selected country.

CAUTION

- Installing the Liquid Crystal Television requires special skill that should only be performed by qualified service personnel. Customers should not attempt to do the work themselves. SHARP bears no responsibility for improper mounting or mounting that results in accident or injury.
- Carefully read the instructions that come with the bracket before beginning work.
- Do not install / mount the TV with tilting condition.
